

DANKESCHÖN!

Thank you for choosing the Horde AIMO and welcome to the ROCCAT® family. The Horde AIMO pioneers ROCCAT's breakthrough Membranical keys. Bridging the gap between mechanical and membrane, its keys boast an island layout and features a midway travel actuation point, for a more accurate and responsive key stroke. AIMO, ROCCAT's evolutionary intelligent lighting system, presents a world of illumination possibilities that merges seamlessly with how you game.

We hope you enjoy being a part of our community, ROCCATEER.

AIMO LIGHTING SYSTEM

AIMO is the vivid illumination eco-system from ROCCAT®. Its functionality grows exponentially based on the number of AIMO-enabled devices connected. It also reacts intuitively and organically to your computing behavior.

DETACHABLE PALM REST

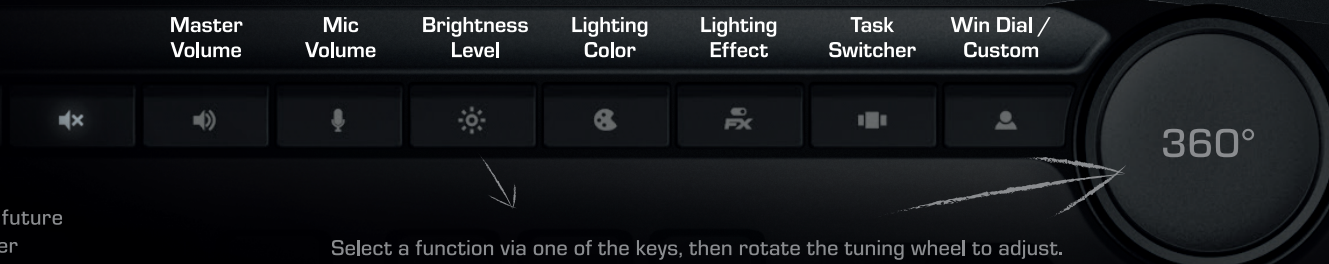

The detachable palm rest caters to both hands-on gamers and those who game with a more relaxed, casual style. The rest's ergonomic design makes it comfortable for long gaming sessions.

ROCCAT® SWARM

Swarm is the software incarnation of ROCCAT's future ready philosophy. It'll cover you for all relevant gaming platforms and devices. It's the next-gen system that keeps on top all games, apps and ROCCAT products in one place.

CONFIGURABLE KEYS + TUNING WHEEL

The tuning wheel and keys provide fast and intuitive control for multimedia, illumination, brightness, dpi, volume and more.

ROCCAT HORDE AIMO

GERMAN DESIGN & ENGINEERING SINCE 2007

QUICK-INSTALLATION GUIDE

EASY-SHIFT[+]™ BUTTON DUPLICATOR

The Horde AIMO features world-famous Easy-Shift[+]™ button duplicator technology, which lets you assign a secondary function to the keyboard's Easy-Zone keys and wheel, increasing the amount of command power at your disposal. This gives you the power to pack a massive amount of quickly-accessible control into a clean, uncluttered space.
