SETUP

1. Initial Setup

Plug the USB-C end of the cable into the top of the controller, and the USB-A side into your console or PC, then press the Xbox button on the controller. The light above the Xbox logo will illuminate to indicate it is connected.

2. Mute Microphone

Press the function button, located above the audio jack, twice to mute your microphone.

3. Control Volume

While holding down the function button, press D-Pad +Up/-Down to adjust game volume.

4. Game/Chat Balance

While holding down the function button, press D-Pad Left/Right to adjust game/chat balance.

5. Program Back Buttons

■ While holding down the function button, press the back button you would like to map a function to, and the function button LED will start flashing.

■ Press any button you would like mapped, and the function button LED will flash 3 times indicating a successfully mapped function.

6. Hair Trigger Mode

Hair triggers are a highly-sought after feature that allows for faster triggers pulls, and an enhanced gaming experience. Turtle Beach uses Hall-effect true digital hair triggers for a rapid and precise trigger response.

To enable hair trigger mode:

- Toggle the slider buttons on the back of the controller upward to set the trigger buttons to hair-trigger mode.
- Toggle the slider buttons on the back of the controller downward to set the trigger buttons back to full-distance mode.

7. Control Hub App

To customize your controller further, download the free Control Hub App from the Windows Store on your PC or Xbox. You can use it to re-map buttons, run diagnostics, recalibrate analog sticks and triggers, and much more.

Open the Microsoft Store from your PC or Xbox console, search and download "Turtle Beach- PDP Control Hub".

Or, if you are on PC, download the App from this link:
